REPORT ON THE FINANCIALS

The budget will continue to see a positive variance in this revenue due to this change.

REPORT FROM THE CHIEF DISCIPLINARY COUNSEL

Chief Disciplinary Counsel Acevedo reported on the following:

- **Sunset Review.** She explained the Sunset review process and tentative timeline for the review provided by Sunset staff. She reported participation in several meetings with Sunset staff to date to provide information about the grievance process, the Office of Chief Disciplinary Counsel, and the Commission. Additional follow-up meetings and responses to requests for information are expected.
- **Grievance Oversight Committee (GOC) Report.** On October 1st, the GOC submitted its report on the State Bar's grievance classification process to the Supreme Court. A discussion was held about the report and that the Court has requested a response to the report.

CONSIDER BUDGET PROPOSAL FOR 2016-17 BAR YEAR

The proposed budget for the disciplinary system for FY2016-2017 was considered by the Commission. Ms. Acevedo reported that the proposed budget for expenses, other than salaries and benefits, is \$1,563,165, an overall increase of \$44,958 from the current Bar Year's budget. Although a \$23,400 reduction in the discipline budget was achieved by revising the contract with Lexis Nexis, rent for the Dallas and Houston offices have or will see substantial increases in FY2016-17, and the Commission will hold a grievance symposium in the Fall of 2016. She noted that last year, CDC/Commission reduced its FY2015-2016 by \$100,000.

Additionally, funding to support three new positions in CDC is sought. The positions requested include an Investigator I in the Houston office, Administrative Attorney in the San Antonio office, and a Classification Attorney in the Austin office. Based on the hiring range for these positions and factoring in benefits, the impact on the budget would be approximately between \$182,000 -- \$204,000.

The projected attorneys' fees revenue for FY2016-17 is reduced from the current budget by \$32,327, while the miscellaneous fees revenue is increased \$109,482 (primarily to account for the anticipated revenue increase for processing Certificates of Good Standing formerly handled by Membership) for a total projected revenue of \$493,227.

Motion: To approve the proposed FY2016-2017 budget for the disciplinary system.

Subject: Request Investigation into the Grievance Process No. 201404774

Ms. Mock

I received your letter in response to my letter request that the Disciplinary Office review my grievance/complaint I filed against Attorney S. Haughton, to make sure the proper grievance process was followed.

I understand your policy Under Rule 2.16 of the Texas rules of Disciplinary Procedure, to keep confidential all disciplinary information unless a matter results in a public sanction or the respondent attorney has elected to proceed in district court, you are able to provide complainants with general information about the status of their case, but you are prohibited from providing information regarding the identity of witnesses that your investigators interviewed or their statements. .

I understand your office keeping all disciplinary information confidential. However, I do not understand why your investigators would interview witnesses, that Attorney Haughton didn't listed in his response to my Grievance

I find it hard to believe the proper grievance process was followed, since I wasn't allowed to know the identity of the new witnesses or respond to their statements.

My questions are: How did your investigators identify these new witnesses.

If I'm the victim: Why did your investigators seek new witnesses in this case, after Mr. Haughton produced his own witnesses in response to my Grievance.

After, I presented 15 Exhibits to rebuttal Mr. Haughton and his witnesses, including Exhibit 4, a letter from the opposing side attorney complaining of attorney misconduct by Mr. Haughton, as evidence in the case.

Furthermore, you state that my grievance survived the classification stage, and your office conducted an in-depth investigation to determine whether there was just cause to proceed. Under the Rules, "just cause" means "such cause as is found to exist upon a reason inquiry that would induce a reasonably intelligent and prudent person to believe that an attorney either as committed an act or acts of professional misconduct requiring that a sanction be imposed"

It is evident by Attorney Haughton's own admission and evidence, including Exhibit 4, a letter from the opposing side attorney complaining of attorney misconduct by Mr. Haughton, your office failed to hold Mr. Haughton accountable for acts of professional misconduct.

How could your office determine "No Just Cause" exist for acts of professional misconduct?

When Mr. Attorney admitted that he took a case, which he felt was insufficient, but failed to inform me he felt the case was insufficient. Instead he accepted a \$12,000 retainer fee. Attorney Haughton had a legal duty to advise me that he felt my case was insufficient, which he failed to do.

When by Mr. Haughton's own admission he took a case, which he felt was insufficient proves that he never intended to properly represent me or prosecute my case, his admission clearly explains why he failed to depose the opposing side witnesses, including my key witness; and failed to request productions, and why he refused to work cooperatively with the opposing side attorney.

How could your office determine "No Just Cause" exist for acts of professional misconduct?

After, I presented evidence that Attorney Haughton lacked integrity: (1) Why didn't Attorney Haughton advise me that he felt my complaint was insufficient when I brought the case to them? (2) Why did Attorney Haughton accept my case and charged me \$12,000, if he felt the case was insufficient? (3) Why did Attorney Haughton accept a case he felt was unwinnable, and a case he couldn't present to the courts without a good faith argument?

After, I presented evidence that Attorney Haughton and his firm was negligence, inattentiveness, and intentionally failed to represent me properly and prosecute my case, after they failed to depose the opposing side witnesses, including my key witness; they fail to request productions, and they refused to work cooperatively with the opposing side attorney.

It is evident by evidence presented, including Attorney Haughton own admissions that "just case" existed where upon a reason and "Fair" inquiry should have induce a reasonably intelligent and prudent person to believe that by Attorney Haughton committed acts of professional misconduct requiring that a sanction be imposed

Yet, your office failed to take disciplinary actions against Attorney Haughton, not holding him accountable for acts of professional misconduct, allows him to go on to steal from other citizens, while giving other Texas Attorneys' a bad name.

The lack of action your office took in this case, not to disciplinary an attorney's egregious act of theft and other acts of professional misconduct, clearly explains why Attorney Haughton was so bold in stealing my money, and committing other acts of professional misconduct, because he was well aware that he would not be held accountable, he knew he would be protected.

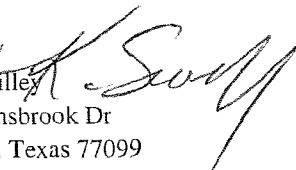

If there was ever a time to propose rule changes, my case is the poster case for such change for disciplinary actions against Texas Attorneys, to assure that injured citizens like me will not be taken advantage of, thus enhance public respect of Texas Attorneys.

Action is warranted in this case, to send a strong message that such egregious acts of professional misconduct will not be tolerated

I am requesting that the Disciplinary Office review my grievance against Attorney S. Haughton, because without having the opportunity to respond to the additional new witnesses or their statements, the investigation of my grievance wasn't fair and properly investigated.

I am requesting the investigation against Attorney Haughton be reopened; in order, to have a thorough, fair, and complete investigation of my complaint/grievance against Attorney Haughton.

I am requesting that you reconsider your ruling, and reopen the investigation in this case.

Sincerely
Katy Swilley

Re: Grievance no. 201404774

Dear Ms. Swilley:

I received your follow-up letter dated August 15, 2015 regarding your inquiry into the dismissal of the grievance that you filed against your prior attorney. I apologize for my delayed response, so thank you very much for your patience.

You asked how our investigators identified the additional witness that we interviewed and why we interviewed a new witness that was not identified by either you or the respondent attorney. When a grievance reaches the "just cause" investigatory stage, our office conducts an independent investigation, which may mean we discover evidence independent of what has been provided by either the complainant or the respondent. Our investigators strive to be as thorough as possible.

You appear to believe that your grievance was dismissed based solely on the testimony of the referenced witness. Our investigation indicated that the majority of the evidence itself did not support a finding of "just cause" to proceed with a disciplinary complaint. For example, in your grievance you asserted that the respondent attorney failed to respond to discovery. However, the actual case records reflect that he either responded in a timely manner or obtained extensions of time to respond when necessary. Although you may believe that the respondent attorney's work was inadequate, our office does not mediate disputes regarding the quality of an attorney's work. Rather, we prosecute matters in which it appears that the attorney committed a specific act of professional misconduct, in violation of one of the rules set forth in the Texas Disciplinary Rules of Professional Conduct.

I understand that it can be very frustrating to (a) lose a litigated matter and (b) have your grievance dismissed. Our office strives to protect the public when an attorney commits an act of professional misconduct. In your case, it just does not appear that the attorney's conduct violated the Rules. The Summary Disposition Panel that reviewed your grievance agreed as well. I am very sorry that you are unhappy with the result of your grievance, but we do the best that we can to ensure that we reach an outcome based on the evidence that is discovered during our investigation.

Thank you so much for your correspondence, and do not hesitate to contact me with any additional questions.

Sincerely,

Claire Mock
Public Affairs Administrator

Re: Case no. #201502120

Dear Mr. Mattox:

As Special Administrative Counsel for the attorney-discipline system, the information regarding your grievance was forwarded to me for a response.

I understand that you intend to file additional grievances, and I have enclosed three grievance forms per your request.

I see that you have previously filed several grievances against the lawyer cited in your letter, which have been dismissed for either failing to describe a violation of the disciplinary rules or failing to allege additional information that would demonstrate professional misconduct. It appears that the periods to amend and refile or to appeal the dismissal have passed. Therefore, please be advised that any additional grievances must contain a new allegation(s) of misconduct to avoid summary dismissal.

Please feel free to contact our office if we can be of further assistance.

Sincerely,

14. Do you have any suggestions for improving the grievance system?
 There should be opportunity to be heard/ at least speak to attorney (or) The Grievance Dept. Decision letter should explain why each complaint did not violate conduct as stated specifically. Dismissal letter is clearly promoting conduct violation as it is impossible + unacceptable to believe that Stated the English + Perry conduct is acceptable conduct as stated by Texas Bar Association as Stated in Dismissal letter. It is promotion of attorneys abuse of clients in Texas. No evidence my complaint ever reached Attorney Dept.

DISCIPLINARY SYSTEM QUESTIONNAIRE

Question 13, from Questionnaire asks, "Do you believe the grievance system is fair." my answer is definately NOT. I recently submmitted a grievance against a defense attorney whom I hired to defend me on a criminal case, Grievance # 201504939. I sent in a detailed list of events explaining the unfair and dishonest conduct of counsel. My grievance was dismissed with the reason that what I scribed did not violate any of the Rules of Professional Conduct that governs attornies.

I then went to my law library and looked up the rules of professional conduct that was mentioned. You average citizen doesnt even have knowledge of the existance of such rules. therefore when your form asks us to explain our grievance we are not made aware of the need to understand these rules. There is a big dependance by the citizen on the person who will be reading and handling the grievance to look through the rules and apply the appropriate violation of the counsel.

In my case after my case was dismissed and I had to go out of my way to look for the rules and apply them myself, I found that the person who handled my case, did not or was not willing to apply the appropriate violation to counsel. I myself had to amend my grievance and write the applicable violation to my own circumstances. I then noticed how carelessly, even maliciously my grievance was disssmised, as you can see from my amendment there are flagrant and clear violation that the handler was unwilling to apply.

I found out with research the the majority of the staff that handles these grievances are attornies. I instantly see the conflict of interest. Any compitent attorney who would have read my original grievance could see flagrant violations to the rules of conduct, yet they where unwilling to apply them to this rotten attorney, Rick Canales.

The mayority of citizens who would get their grievance dismissed like I did would give up and the violating attorney would get away with misconduct. Yet I am fortunately able to do the appropriate research and see the unjust and unfair handling of these grievances. It is no suprise there are so many rotten attornies in practice, because the BAR, lets them and harbors their misconduct.

There must be a change in the way these grievances are dismissed. One person being trusted to handle a grievance is not fair. Specially if they are an attorney themselves. I suggest, it take three persons to review, attempt to find a violation and if they will dismiss, give a written explanation why the Rules dont apply to that circumstance, and why it is being dismissed.
